NEW International Programs Website with more opportunities!!

NEW International Veterinary Medicine Certificate Program

Deadline to join the International Student Veterinary Association (IVSA)

International Off-Campus Blocks/Externships for 3rd years (Oct 14th)

International Veterinary Certificate Program:

The International Veterinary Certificate Program was created to provide PVM students with a complete cross-cultural experience (before, during, and after travel abroad). The certificate is tailored to give students a better understanding of International Veterinary Medicine as well as prepare them to engage with the culture they are entering. Those who complete the certificate will have a comprehensive knowledge of the international options available for PVM students, various scholarship opportunities available (as well as tips on making their application stand out), safety and health tips for travel abroad, global approaches to veterinary medicine, marketing their study abroad experience upon return, as well as everyday information that makes their experience worthwhile.
