ADDL clients:

The following fee changes take effect on 8/1/2019. These changes allow us to cover the rising costs associated with providing quality diagnostic testing. Where helpful, the ADDL website will be updated to include additional details pertaining to test additions and changes. We are committed to serving our veterinary partners, and welcome any questions or feedback. To reach us, please email addl@purdue.edu or call 765-494-7440.

The ADDL is dedicated to providing timely information and news to our clients. Our primary way of communicating updates, test availability, and closing will be through our website and a dedicated email list. We highly recommend signing up to our email list. To sign up, visit the News & Events section on our website (<https://www.purdue.edu/vet/addl/news-archive.php>).

Sincerely,

Kenitra Hendrix, ADDL Director
