Welfare Considerations in Rehoming Breeding Dogs

Challenges to Rehoming Success

- Unanticipated health care costs
- Global fearfulness
  * Lack of socialization
- Lack of training
- Housebreaking challenges
- Finicky eating

Setting Dogs up for Rehoming Success: Do they have what they need?

- Space
  * Complex, indoor/outdoor
- Social interactions
  * People, other dogs
- Exercise
  * Outdoor yard, leash walks, sports
- Enrichment
  * Toys, chew items, scents, sounds
- Training
  * Leash walk
  * Basic commands (sit, come)
- Ongoing socialization
  * People, places, objects, sounds

Socialization = gradual, controlled, gentle exposure to various environmental stimuli (people, things, animals, places, and experiences) that results in a positive experience.

Teaches what is safe and unsafe, appropriate behavioral responses, and social skills.

Lifelong socialization is the key to preventing problems related to fear, arousal or anxiety.

Is this dog a candidate for rehoming?

Factors to Consider:

- Age
- Welfare status
  * Is the dog healthy?
  * Does the dog have any genetic issues?
  * Does the dog have any behavioral issues?
- What training and transitioning is needed?
  * Low stress handling
  * Acclimation to home environment
  * Positive, reward-based training
  * Social facilitation via other dogs

Consider individual preference for other dogs.

Why rehome?
It is the responsible, ethical choice that the public expects.

Candace Croney

PURDUE VETERINARY MEDICINE
Special Needs of Retired Breeding Dogs
- Physical health monitoring
- Behavioral support
- One on one positive caretaker interactions
- Secure resting area
- Positive, reward-based training

Euthanasia decisions should not be made on the basis of convenience.
Establish criteria:
- Severe, poor prognosis for physical or behavioral health issues that result in ongoing poor quality of life

Take Home Messages
- Successful retirement & rehoming is difficult
  * Requires planning and collaboration
- Set dogs up for success early
  * Assess dogs early and often using criteria for both retirement and rehoming

Implementing a Retirement Plan
- Assess dog in different areas of facility
- Identify retirement location
- Determine if candidate for rehoming
- Assume dogs will need social support
- Consider pair-adoptions where feasible
  * Dogs should be stable, familiar and compatible

Transitioning to Homes
- Social facilitation/stress buffering via other dogs
  * Consider individual preference for other dogs
- Knowledgeable, prepared rehabilitators and owners
- Low stress handling
- Acclimation to home environment
  * Ideal to simulate in kennel design
